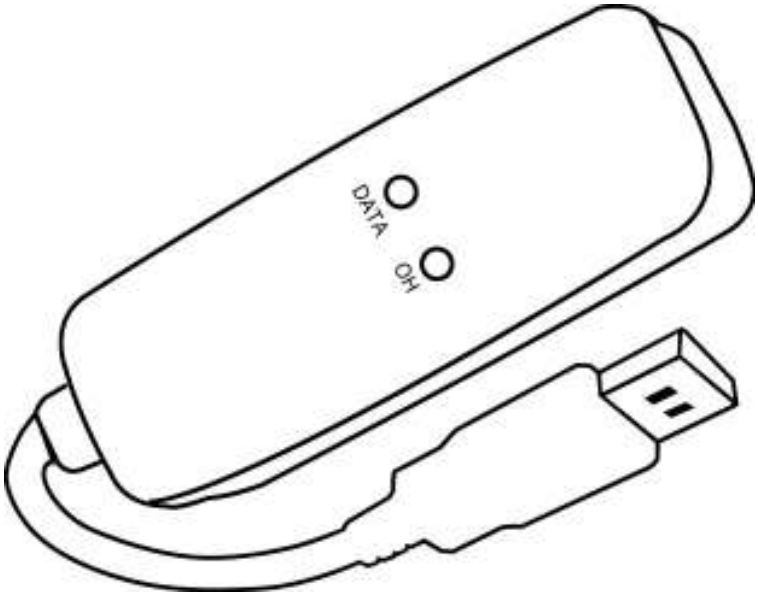
USB Modem 56K

Quick Installation Guide

Model # AEM-56K-LU

Installation

1. Plug in your 56K USB Modem to your USB port.
   - 'OH' LED: On while dialing and connected; off after disconnected.
   - 'DATA' LED: Blinking during data sending/receiving.



2. **Found New Hardware Wizard** window pops up, click **Cancel**.

Found New Hardware Wizard
Welcome to the Found New Hardware Wizard
Windows will search for current and updated software by looking on your computer, on the hardware installation CD, or on the Windows Update Web site (with your permission).
Read our privacy policy
Can Windows connect to Windows Update to search for software?
Yes, this time only
Yes, now and every time I connect a device
No, not this time
Click Next to continue.

Cancel

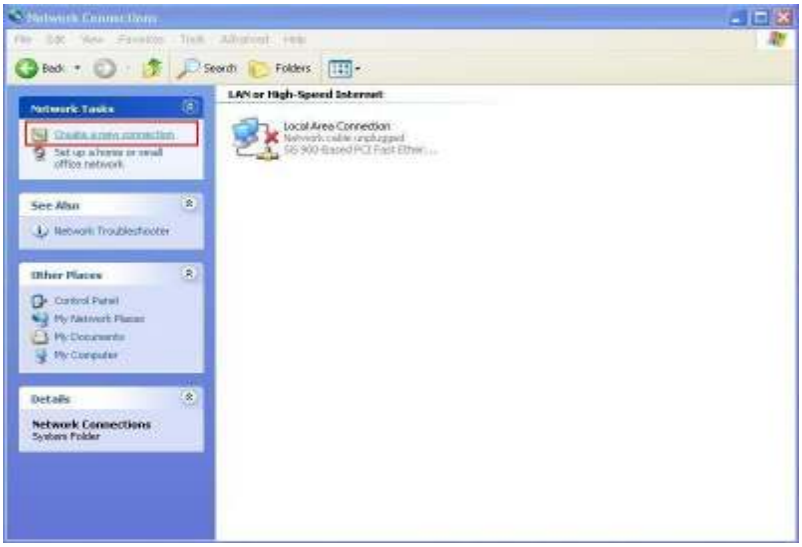
3. The installation driver CD in your package will automatically activate the auto-run installation program after you insert it into your CD-ROM drive. Then click **Driver Installation**.

4. Select drive for your OS, for example: **Windows 2K_XP**.

5. The **Device drive installation wizard** shows that the device is being installed.

Manual Dial-up Connection Settings

1. On **Control Panel/Network Connections**, click **Create a new connection**.



2. Click **Next**.

3. Select **Connect to the Internet** and click **Next**.

Getting Ready
The wizard is preparing to set up your Internet connection.
How do you want to connect to the Internet?
Choose from a list of Internet service providers (ISPs)
Set up my connection manually
For a dial-up connection, you will need your account name, password, and a phone number for your ISP. For a broadband account, you won't need a phone number.
Use the CD I got from an ISP

Internet Connection
How do you want to connect to the Internet?
Connect using a dial-up modem
This type of connection uses a modem and a regular or ISDN phone line.
Connect using a broadband connection that requires a user name and password
This is a high-speed connection using either a DSL or cable modem. Your ISP may refer to this type of connection as PPPoE.
Connect using a broadband connection that is always on
This is a high-speed connection using either a cable modem, DSL or LAN connection. It is always active, and doesn't require you to sign in.
